Making literacy a family affair is a goal of Junior League of Annapolis, but making reading fun is a key factor in a young learner's success.

Not only is reading a vitally important family activity, it's a vitally important life skill. One critical factor in determining a child's school readiness is a child's exposure to language and reading.

Through Read 2 Kids Day, as well as the League's Little Free Libraries, Junior League of Annapolis strives to give all children access to books and make reading a lifetime activity.
